

B1  
Conclude

42. A humanized form of the mouse M291 antibody, wherein the mouse M291 antibody has a heavy chain with a variable region of sequence SEQ. ID. No. 11 and a light chain with a variable region of sequence SEQ. ID. No. 9

REMARKS

Support for the new claims is provided at, e.g., p.p. 10, 16-21 and Example 4.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

*J. Liebeschuetz*
